

This assessment has two parts:

1. Business Report (15 marks)
2. Presentation (10 marks)

Due Date:

- Report is due on 27 May 9 AM PERTH TIME and
- Presentation is due during your usual lecture time on 27 May and 30 May.

Part 1: Instructions:

To prepare your report follow the instructions below:

- Collect the latest 5 years' annual report for the company assigned to you to answer the following questions:
 1. Perform the vertical analysis to identify the top 5 contributing items for financial performance and financial position by considering the most recent year's annual report. Explain your results (8 **Marks**)
 2. Perform the trend analysis for six years' data collected from the five annual reports to observe the financial performance of the company. Use the top 5 contributing items that you have found in Question 1. Explain your results (5 **marks**)
 3. Calculate the ratios for five years to explain and analyse the followings aspects: (10 **marks**)
 - Liquidity and efficiency (calculate any five ratios as you decide the most important including the **cash conversion cycle**)
 - Profitability
 - Market prospects

Your report should have a structure of executive summary, introduction, relevant sections to present the answers to the three questions, discussion and conclusion. (2 marks)

Put all the calculations and relevant formula in the appendix of the report. Include the main results in the body of the report. The maximum word limit is 2000 words.

Part 2: Instructions:

To prepare your presentation follow the instructions below:

1. Prepare the presentation by including only the findings for the three questions in the business report. No calculation is required to present.
2. What are the strengths and weakness of the company by observing the vertical, trend analysis and ratio analysis.

The maximum time limit is 10 minutes per group. Allocate the work accordingly so that you are exceeding time limit.

The end.
